HORWARD MUYUNI

Blockchain & Web3 Technical Writer | Digital Business Educator

🔑 Lusaka, Zambia | ☎ hmuyuni@gmail.com | 📱 +260-966-326188
🔑 LinkedIn | 🖋 Medium | 🖥 GitHub

PROFESSIONAL SUMMARY

Technical writer with a software development background, focused on Web3, blockchain, and digital business education. Specializing in writing **clear, beginner-friendly, non-promotional content** that helps users understand crypto concepts safely and avoid common scams. The works include educational blog articles, onboarding guides, documentation, and simplified explanations of complex technical topics. The focus is on clarity, accuracy, and simple-to-understand language for beginners – not the usual cryptocurrency hype. Published multiple articles on blockchain fundamentals, crypto wallets, transactions, and Web3 skills, and maintain a GitHub portfolio showcasing technical writing.

Mission: Protecting crypto newcomers from scams through honest, practical education.

BLOCKCHAIN & WEB3 EXPERTISE (Since 2021)

Technical Knowledge: Smart Contract Addresses • Blockchain Architecture • Cryptocurrency Transactions • Wallet Security (Custodial/Non-Custodial/Hardware/Software) • Common Scams (Pig Butchering, Rug Pulls, Phishing, Fake DApps) • DApps • DeFi Protocols • NFTs • Web3 APIs • Blockchain Explorers • Token Standards (ERC-20, BEP-20)

Platforms: Ethereum • Bitcoin • Binance Smart Chain • Polygon • MetaMask • Trust Wallet • Ledger • Trezor

WRITING & CONTENT

Published: 5+ educational articles on Medium covering crypto scams, blockchain fundamentals, wallet security, and beginner safety
Specializations: Technical documentation • API guides • Scam awareness content • Mobile-first crypto solutions • Educational content for non-technical audiences • Systems integration documentation

CORE TECHNICAL SKILLS
